

IF Consultancy Price List

Last Updated December 2009 – Prices are exclusive of VAT

Thank You for requesting or downloading a price list from IF Consultancy. We hope that you find it useful when trying to make a decision about the services that you require and who will provide them. We are aware that for many people price is an important factor in commissioning any work which is why we don't keep our prices secret! However what you can't see from a price list is what the service that you get is like or just how friendly we are. The world of design and the web can be confusing and full of jargon and we aim to try and steer you through that allowing you to stay in control of your business whilst removing the worry and offering a high quality service at an affordable price. If you have any questions or would like to find out more please call or email us on 0845 652 4412 or info@ifconsultancy.co.uk or check out our website www.ifweb.co.uk

We have a range of fact sheets that may also help to make things clearer in your mind and would be happy to send you copies by email or post. (thinking About a Website?, Just What Is Web Marketing?, Choosing Design and Print, How do I get more customers?, The Basics of E commerce).

If you can't see exactly what you want, please contact us and we will put together a bespoke quote.

Finally, thanks for taking the time to read this – we hope you find it informative and helps you to make the next step.

All at IF Consultancy

Website Package Prices

We do not use templates to create our websites. All our sites are designed from scratch to your specification. Our designer will discuss your needs with you and create two design based on this. You will be able to preview these designs, select a design or aspects of both and see a final mockup before we build your site. All our sites are search engine friendly and submitted to the search engines as standard. All our websites include a .co.uk domain and email addresses that you can access online or download to your computer.

Hosting (please note Ecommerce sites have a seperate hosting structure):

Managed Hosting Lite – 2 updates per year, we host email and website and troubleshoot any problems. Collate stats to discuss at annual review. Managed Hosting Lite is only available to customers with static sites, this option is not available on CMS.

Managed Hosting Standard – Monthly updates done within 8 working days, host email and website, troubleshoot any problems. Access to online stats package. 5% off any future developments for your website.

Managed Hosting Professional – Monthly Updates done within 48hrs, host email and website, troubleshoot any problems. Access to online stats package. 10 % off any future developments for your website
